

Quest Essentials

What's included:

Microsoft 365 Business Premium

Microsoft 365 Business Premium includes Office apps, cloud storage, advanced security, and Microsoft Teams for business productivity.

Mimecast - Critical Protection

AI-powered email security with advanced threat protection, internal scanning, and BEC defence to safeguard cloud, hybrid, and on-premises environments.

Dark Web Monitoring

Monitors the dark web for stolen credentials or data, and alerts you to threats so IT teams can act and prevent identity theft.

Microsoft Defender Included

Microsoft Defender provides essential antivirus and malware protection, real-time threat detection, and basic security for Windows devices at no cost.

End User Workstation - Monitoring & Patching Management

Proactive monitoring and patching of end-user workstations to ensure performance, security compliance, reduced downtime, and continuous operational reliability.

Service Desk

A responsive, proactive service desk that resolves issues quickly, prevents disruptions, and keeps your users and systems running smoothly.
