

ACRONIS CYBER BACKUP CLOUD FOR MICROSOFT 365

The ultimate protection for 24/7,
safe and secure backup

REMAIN SECURE WITH 24/7 BACKUP FOR MICROSOFT 365

The threat landscape is becoming more complex and protection against real-time cyber threats is more important than ever. Educating your employees on how to spot a malicious email can be particularly difficult and a significant strain on your resources, particularly when cyber criminals are using more refined and advanced techniques to target businesses – large or small.

With Acronis Cyber Backup for M365, you don't have to face losing your valuable data. Stored safely and securely within a UK Acronis Tier-IV data centre, your data can be backed up 24 hours a day, seven days a week. It's the ultimate protection for your emails, OneDrive and SharePoint files.

'There was a **300%** spike
in Cybercrime during the
Covid - 19 pandemic.'

- ACRONIS CYBERTHREATS REPORT 2020

WHY DO I NEED TO BACK UP MY MICROSOFT 365 DATA?

Microsoft 365 only keeps messages in the deleted items folder for up to 30 days by default. If you accidentally delete a message from this folder, or if someone maliciously deletes it, the original data may not be retrievable.

With many businesses subject to an email retention period for regulatory compliance, email backup, and the ability to recover individual messages or entire folders from SharePoint or OneDrive, becomes mandatory.

WHY CHOOSE ACRONIS CYBER BACKUP CLOUD FOR MICROSOFT 365?

Whether you need to recover an individual email, a SharePoint or OneDrive file, and multiple folders, Acronis Cyber Backup for M365 is easy to use and incredibly agile. Plus, the instant restore feature means you can recover data quickly for a complete, worry-free experience.

- ✓ Complete Microsoft 365 backup to the Acronis Public Cloud
- ✓ Preview/Search mail by subject, to/from, sent/received date ranges
- ✓ Instantly restore emails, OneDrive and SharePoint files and folders
- ✓ Provides point-in-time recovery
- ✓ Backup encryption in transit and at rest
- ✓ Recover messages by sending them as an email from the console
- ✓ Take ownership of all your data on UK shores

WILL MY DATA BE SAFE?

When you place your data in the cloud, it remains yours and is accessible at any point and anywhere. With Acronis, all backed up customer data is stored in a highly secure UK-based Acronis Tier-IV data centre which is reinforced by a 99.995% Service Level Agreement. It means you get peace of mind knowing that your data is safe and can be accessed through the Acronis web console at any time.

Acronis provides more than 5 million customers with world-class backup protection every day. As an award-winning leader in data backup and file management, you know their solutions are trusted.
