

DeliverySlip

**FOR THE
FINANCE
INDUSTRY**

**OVER 60% OF COMPANIES
HAVE EXPERIENCED
A DATA BREACH**

CLIENTS ARE DEMANDING GREATER PROTECTION OF THEIR INFORMATION

As financial experts you know there is increasing pressure to safeguard customer data in an environment of growing regulatory oversight. You want to provide a service to them that puts their mind at rest and in turn generates long-term customer retention, trust and profit for your business.

Wouldn't it be good if you could offer your client's password protected emails or the reassurance that you can quickly and easily recall emails that have been sent to the wrong person?

Well now you can...

INTRODUCING DELIVERYSLIP

DeliverySlip is far more than traditional encryption. It's an information management tool that enables you to easily protect and control access to your email and all of the valuable content and client information that flows through it.

DeliverySlip is a cloud-based encryption and message control platform that's easy to use and quickly integrates into an existing email infrastructure and into any third-party archiving system. DeliverySlip enables finance firms like yours to easily protect, control and manage the exchange of information, even after content has left the email mailbox.

GIVING YOU A COMPETITIVE ADVANTAGE

DeliverySlip is becoming a core information management and communications tool that encompasses not only secure email, but also data loss prevention, large file transfer and secure mobile messaging; fulfilling all of your client's needs.

Financial service organisations that adopt DeliverySlip differentiate themselves in the marketplace with a superior client experience,

increased worker productivity, reduced expenses, and a reputation of trust.

With that in mind you want to stand out from the rest and provide a service to new and existing clients above and beyond that of your competitors. In today's information-rich finance environment, DeliverySlip is a critical tool for financial experts looking to maintain a competitive edge.

A SOLUTION THAT BENEFITS EVERYONE

SIMPLIFIED SECURE COMMUNICATIONS:

With DeliverySlip you can securely and easily send, receive and track email communications on any device.

REGULATORY COMPLIANCE:

DeliverySlip ensures regulatory compliance.

SECURE LARGE FILE SHARING:

DeliverySlip allows users to easily and rapidly send and receive file attachments (unlimited size) without clogging the email gateway.

SEAMLESS INTEGRATION:

DeliverySlip quickly and seamlessly integrates into your existing email infrastructure including Outlook and Office 365.

INDIVIDUALLY BRANDED ENVIRONMENT:

DeliverySlip's secure information management platform is individually branded to match the "look and feel" of your business.

SECURE E-SIGNATURES:

DeliverySlip makes it easy for you to securely request and provide e-signatures on documents and image files directly within a secure message. The process takes seconds at either end and is fully secure, ensuring data integrity, compliance and non-repudiation.

ADVANCED CONTROL FEATURES:

DeliverySlip's Delivery Slip control panel empowers you to track when an email is received and read and to control whether it can be replied to or forwarded. You can recall a message after it has been sent and apply password protection for sensitive information

DATA LOSS PREVENTION:

DeliverySlip works with any existing data leak prevention engine to help prevent unauthorised or mistaken sharing of sensitive or prohibited content and offers 'intelligent content scanning' based on security policies.

ENHANCES COLLABORATION AND PRODUCTIVITY:

DeliverySlip's advanced control features, secure e-signatures and rapid large file sharing capability gives users to quickly and confidently share sensitive information and large documents.

AFFORDABLE:

As a cloud-based solution, DeliverySlip significantly reduces costs compared to in-house solutions, which are expensive to implement and maintain.

SAFEGUARDS AGAINST DATA LOSS:

DeliverySlip offers the most advance protection and message control. With true message recall and the ability to expire messages at a later date (so recipients can no longer see them) data is always protected.

EMPOWERS BETTER DECISIONS:

DeliverySlip gives you real-time knowledge about the receipt and opening of emails sent. With this information you are better informed and able to eliminate needless follow-ups.

BUILDS A COMPANY'S BRAND:

DeliverySlip builds a reputation of trust and security so that your customers and prospects feel confident sharing information.

SUPPORTS SECURE MOBILE DEVICE MANAGEMENT:

DeliverySlip extends the secure messaging environment to smart phones and tablets to enable a secure BYOD environment.

INTEGRATES WITH ANY EXISTING ARCHIVING SYSTEM:

DeliverySlip provides simple, automatic decryption with any existing archiving system to ensure internal information management processes are seamless and easy, from start to finish.

GIVE YOUR CUSTOMERS A SECURE SERVICE WITH DELIVERYSLIP.
