

**FOR THE
LEGAL
INDUSTRY**

CLIENTS ARE DEMANDING GREATER PROTECTION OF THEIR INFORMATION

As experts of law you know that you want to give your clients the most stress-free, reassuring and easiest experience possible. You want to provide a service to them that puts their mind at rest and in turn generates long-term customer retention, trust and profit for your business.

So wouldn't it be good if you could offer your client's password protected emails or the reassurance that you can quickly and easily recall emails that have been sent to the wrong person?

Well now you can...

OVER 60%
OF COMPANIES
HAVE EXPERIENCED
A DATA BREACH

INTRODUCING DELIVERYSLIP

DeliverySlip is far more than traditional encryption. It's an information management tool that enables you to easily protect and control access to your email and all of the valuable content and client confidential information that flows through it.

DeliverySlip is a cloud-based encryption and message control platform that's easy to use and quickly integrates into an existing email infrastructure and into any third-party archiving system. DeliverySlip enables law firms like yours to easily protect, control and manage the exchange of information, even after content has left the email outbox.

SECURE MESSAGES

As a recipient, notify me when:

I receive a new secure message: Mobile Desktop

A secure message is recalled:

Confidential

GIVING YOU A COMPETITIVE ADVANTAGE

DeliverySlip is becoming a core information management and communications tool that encompasses not only secure email, but also data loss prevention, large file transfer and secure mobile messaging; fulfilling all of your client's needs.

Law firms that adopt DeliverySlip differentiate themselves in the marketplace with a superior client experience, increased worker productivity,

reduced expenses, and a reputation of trust.

With that in mind you want to stand out from the rest and provide a service to new and existing clients above and beyond that of your competitors. In today's information-rich legal environment, DeliverySlip is a critical tool for law firms looking to maintain a competitive edge.

NO TECHNICAL EXPERTISE NEEDED:

As a cloud-based solution DeliverySlip has no hardware to install and deploys in minutes. DeliverySlip uses your existing email infrastructure including Outlook, Office365 and Gmail.

FULLY CUSTOMIZED SECURE ENVIRONMENT:

DeliverySlip provides your business with a dedicated 'slice' of the secure cloud that is fully customisable to match your security policies. The portal is also branded and encrypted for your firm and your existing email environment to create a seamless user experience.

DATA LOSS PREVENTION:

DeliverySlip works with any existing data leak prevention engine and can offer 'intelligent keyword scanning' of message content based on your security policies. Plus, with the ability to fully revoke sent messages, data is always protected.

KEY FEATURES

SIMPLIFIED SECURE COMMUNICATIONS:

With DeliverySlip, you can simply and securely send, receive, track and control email communications on any device, including smart phones and tablets.

REGULATORY COMPLIANCE AND ELECTRONIC DISCOVERY:

DeliverySlip supports the full spectrum of information privacy and security regulations. For e-discovery purposes DeliverySlip ensures messages are verified and intact, including who received it and whether it was read, along with date and time stamps.

SECURE LARGE FILE TRANSFER:

DeliverySlip allows both the sender and receiver to easily, quickly and securely share large file attachments of up to 5GBs through regular email.

ADVANCED CONTROL:

DeliverySlip's patented 'Delivery Slip' provides real-time activity notifications when an email is received and read, and you can control whether it can be replied to or forwarded. You can recall a message after it has been sent and apply password protection for sensitive information.

INTEGRATES WITH ANY EXISTING ARCHIVING SYSTEM

DeliverySlip delivers simple, automatic decryption to any existing archiving system to ensure seamless and full internal information management.

CONTROLLED COMMUNICATIONS:

DeliverySlip provides maximum control and helps you make more informed decisions by ensuring you know the moment a secure email sent by you was received and read. You also get to decide whether it can be replied to, forwarded or printed by the receiver. If an email is sent accidentally it can be recalled even after it has been opened

PROOF OF RECEIPT:

DeliverySlip features proof of delivery and prevents false claims of non-delivery.

AFFORDABLE:

As a cloud-based solution, DeliverySlip significantly reduces cost compared to in-house solutions which are expensive to implement and maintain.

PROTECTS AGAINST RISKS:

With DeliverySlip's intelligent scanning feature you can automatically prevent the accidental sending of sensitive information that should not be shared.

EASES INFORMATION EXCHANGE:

DeliverySlip's secure and rapid large file transfer empowers staff and your clients to securely share documents (Unlimited attachment size) using their regular email and email addresses without clogging up inboxes.

REPUTATION MANAGEMENT:

DeliverySlip enables law firms to build a reputation of trust and security so that clients feel confident sharing sensitive information electronically and attorney-client privilege is never at risk.

SECURE MOBILE COMMUNICATIONS FOR SMARTPHONES AND TABLETS:

DeliverySlip extends the secure messaging environment to smart phones and tablets to ensure information on every device is protected and under your law firm's control.

 E-SIGNATURE CERTIFICATE
City Network Secure Email

Signature Summary

When a message is sent through the City of Sacramento's Secure Email system, the system automatically generates a digital signature for each message. This digital signature is used to verify the sender's identity and to ensure that the message has not been altered during transmission.
