LENOVO.COM/2IN1

Different for the sake of being better

Your business isn't one dimensional, so you need a device to match.

Browse a selection of our 2-in-1 devices to find the one that suits your organisation's work style and needs. No compromise.

Each one is uniquely different and innovative, supported by accessories that extend each device's potential even further.

2-IN-1 TABLET

Laptop, tablet, projector...
you choose

ThinkPad X1 TABLET

MEET THE
THINKPAD®
X1 TABLET

- 0.76cm thin and 0.77kg light
- Integrated Pico Projector (Presenter module sold separately)
- Up to 15 hours of battery life* with the Productivity Module

Exceed your expectations.

With the Lenovo ThinkPad® X1 Tablet you never need to switch off. You get the 2-in-1 convenience you want, without compromising security and manageability. It's a tablet, but also a laptop, a projector with the optional upgrade modules to customise your X1 Tablet.

The ThinkPad X1 Tablet is supported with up to Intel® Core™ m7 vPro processor, Windows Pro, up to 1TB of PCIe SSD and 16GB RAM for powerful performance.

Full PC productivity whenever you need it with

up to 15 hours of battery life* with the productivity module.

Amazingly thin and light (767g without keyboard), with a convenient magnet-attach full-size ThinkPad® keyboard, it takes mobile productivity to a new level.

award at CES 2016
iF Gold Award (highest honour)

Perfect Fit

WIRELESS TOUCH MOUSE

A thin and light dual mode mouse perfect for taking on the road. Turn it upside down to use the integrated touchpad presenter feature to navigate through slides. It's wireless and Bluetooth-enabled, and features quick charge capability (30 seconds of charging gives one hour of use).

DETACHABLE KEYBOARD

This full-size, backlit keyboard features the legendary TrackPoint and touch pad, so you don't even need a mouse. And at a mere 280 grams, it can easily go everywhere with you whenever you might need it.

PRODUCTIVITY MODULE

With a modular design, you can add features to the ThinkPad X1 tablet that take it beyond the average hybrid. The productivity module boosts battery life by five hours, giving you a total of 15 hours of battery life.* The module also offers additional ports that extend connectivity, including USB 3.0, full-sized HDMI and a OneLink+ docking port.

Lenovo Connect

- Always stay online with Lenovo Connect - 100MB for free testing included
- Integrated 4G Qualcomm Snapdragon X7 LTE-A module (optional)

* Based on testing three different product configurations with MobileMark 2014. Battery life varies significantly with settings, usage, and other factors.

Lenovo

2-IN-1 TABLET

Autonomous anytime.
Anywhere.

LENOVO™ MIIIX 310 & MIIIX 510

The Lenovo MIIIX 310 & 510 were designed for life on-the-go, so be sure these 2-in-1s will power you through any situation, anytime. The detachable keyboard for increased productivity makes it easy to convert from tablet to laptop, so you can work when you need to and play when you want to.

With the blazing-fast performance and built-in security of up to the latest Intel® Core™ i7 Series, the Lenovo MIIIX 510 is ready to

take your creativity to the next level. Add to that the Lenovo Active Pen, which is sensitive to every detail.

The long and astonishing battery life of the Lenovo MIIIX 310 & 510 – up to 8 hours – keeps you connected all day long, so you can enjoy every moment of it. These 2-in-1s definitely understand your lifestyle.

MIIX 510:

2-IN-1 LAPTOP

Power. Performance. Portability.

ThinkPad YOGA 260 & 460

Four Awesome Modes.
One Incredible Device.

With the Lenovo™ ThinkPad® YOGA™ 260 & 460 you can easily change between four modes — Laptop, Stand, Tablet, and Tent — while your system automatically switches system settings and locks the keyboard in place.

The secret: ThinkPad Yoga 260 & 460's unique

design, improved hinge, and touchscreen display allow the screen to flip around 360 degrees – and even lay flat – which means you can select the mode you use based on what you choose to do.

Enjoy cutting-edge processing with the latest Intel® Core™ i Series processors and Windows Pro, plus lots of great improvements you'll love, so you can work longer and play harder.

Ultrathin, Ultralight, Ultra Performant

Stand out from the crowd with the beautiful Lenovo™ Yoga™ 910. This sleek and powerful laptop makes a stylish statement about how you work and play.

Its intricately tooled watchband hinge, the beautiful all-metal unibody design,

its near edgeless 4K display, and the immersive sound will inspire your imagination.

There's nowhere this 360° laptop can't go and with all-day battery, you won't even have to slow down.

*"Lenovo Yoga 910 is
Sexiest 2-in-1 Yet"*
Laptop

ALWAYS READY FOR YOU

With all-day battery life, there's no stopping this 360° degree laptop. Keep your mobile devices charged too – the USB always-on charging port is ready even when the Yoga 910 is closed.

SECURE, FAST PERFORMANCE

Streamline your login – just swipe the Yoga 910's fingerprint reader for simple, secure access, then get going. Faster than you can type a password, from instant logins to instant online purchases, you are the key to your PC. And you'll stay at peak performance all day with the speed of the latest generation Intel® processors.

SUPERIOR STEREO

Listen to your playlists, videos and movies through JBL stereo speakers with the Dolby® Audio Premium™ system. Enjoy remarkable clarity at all volumes, in all applications. Chatting with friends? Dual array microphones with noise cancelling technology minimize background noise, so your words come through crystal clear.

THE BEST OF WINDOWS PRO

Enjoy the best of what Windows Pro has to offer: from fast start-ups, to the expanded Start menu and all-new browser, to Cortana—your very own digital personal assistant.

Lenovo™

The Perfect Companion For Any Lenovo Device

Ready to run on Lenovo devices of every shape and size, Windows Pro gives enterprises more flexibility and computing choice than ever, while reducing the complexity of managing and securing their Windows infrastructure.

THE FLEXIBLE,
COST-EFFECTIVE
OPTION TO HELP
MANAGE AND
SECURE YOUR
BUSINESS

1. Enterprise-grade security as standard

The last few years have seen a revolution in security threats. Windows Pro goes beyond just building bigger walls and delivers entirely new ways to help protect identities, data and devices.

Convenient multi-factor authentication.

Windows Pro offers a flexible multi-factor authentication that allows you to use either biometrics or a PIN plus a trusted device, to access business networks and resources. So IT can ensure strong identity is used organisation wide, instead of relying on passwords alone.

Microsoft Passport.

Microsoft Passport is the flexible two-factor authentication solution that acts as an alternative to a password, and has enterprise grade security much like a Smartcard. Use your PC or your mobile phone, whether it's a Windows Phone, iOS, or even an Android device, as one of the factors. The other factor will be biometric or a PIN.

2. Devices that work with your people

With your new Lenovo device running Windows Pro, you've got a versatile device designed to make everything you do faster and easier. Quickly reach peak productivity with new ways to organise your desktop and the ability to run full Office apps.* Move easily from laptop to tablet – the screen instantly optimizes itself to what you're doing. Enjoy a new browser built for getting things done online, and have your personal digital assistant make things easier throughout your day.**

Lenovo™
